

DELIA BUILT AWARD

It was very evident that the exterior painted areas of the former Delia Grade School were in dire need of painting. The Delia Community PRIDE applied for and received a \$250 grant from Thrivent Financial, solicited and received donations of paint from three area painters and chose as one of our first projects the painting of the needed areas. Citizens and youth from the community were a big help in completing this project. The community can now be proud to call the former school “their” school and feel more comfortable renting the facility for events and celebrations.
