

In early 2015, the City of Lenora made plans to remove two dilapidated structures from our main street. The buildings had become a hazard as bricks fell to cement walkways below and children had been seen wandering in and out of structures. Seeing the City of Lenora’s leadership in progressing our community forward, Lenora PRIDE also wanted to assist with beautifying our main street and creating more of a welcome feel to our community.

“Lenora PRIDE felt that we could showcase Lenora’s vitality and progressive spirit with the addition of welcome banners along our street lights.”
